Block- out

Block-out films block light and visibility completely. They are ideal where absolute privacy is needed. For example changing rooms

1043

B001

Partial Privacy

- These window partial privacy.
You can see partially through the clear lines.
- They allow light to pass through and also adds aesthetics to your space

Oneway Reflective Films

- These window films are reflective in nature.
- They reflect heat and light as well as blocking UV rays.
- They are one-way in that you can see out but the person outside cannot see inside.
- However, at night when the lights are on, the person outside can clearly see inside.
